## EIGHT CASES OF FLU AMONG 3,200 AT STAR JUNCTION

Remarkable Freedom From Malady Attributed to Strict Quarantine.

### AND FREE USE OF SERUM

Anti-influenza Serum Provided by Washington Coal & Coke Company Without Charge to Men, Women and Children; Only One Death Occurs.

Probably no place in the state has been less afflicted with influenza than Star Junction. In all eight cases have been reported in a population of about 3,200. This is due in a large measure to the strict quarantine regulations enforced.

Members of families ill were not permitted to mingle with the remainder of the population. Practically the whole population was inoculated with anti-influenza serum. This was provided free of charge with free service also by the Washington Coal & Coke company. The work was done by Dr. R. S. Martin who labored day and night until the task was accomplished. In one day Dr. Martin inoculated 1,300 persons.

But one death occurred and that was from pneumonia. A woman who had just given birth to a babe was the victim. The health of the locality has been ever under the watchful eye of Superintendent R. C. Beerbower who is much gratified at the success that has attended the efforts that have been put forth.

A very small percentage of the people of the coke town declined to accept the offer of free serum treatment. Men, women and children were treated at no cost to them.

The record made by Dr. Martin in inoculating 1,300 persons in a day (including part of the night) is believed to be unequalled anywhere else.

## FRENCH ARE UNANIMOUS IN BELIEF THAT IT WILL CERTAINLY BE THAT WAY

Day of Evasion is Past and Only Alternative is Capitulation or Invasion; Marshal Foch Continues Unrelenting Pressure; Armies of Kaiser May Break at Any Hour.

### DELIVERY OF NOTE DURING THE DAY WOULD CAUSE NO SURPRISE

By Associated Press

PARIS, Nov. 9.—5.10 A. M.—Germany will capitulate between now and Monday.

French opinion, which is remarkably restrained and conservative, is unanimous in this view. There is no tendency to exaggerate happenings in Germany but it is felt that the Germans have had enough to make it imperative for the government to make peace at the earliest possible moment.

While Germany is reflecting on the Allies' terms Marshal Foch continues his blows without intermission. The German army may break at any moment. There were signs of a new retreat from the Scheldt yesterday and the French are along the Meuse over a front of 15 miles.

The alternative for Germany now is armistice or invasion—not evasion.

PARIS, Nov. 9.—4.25 A. M.—It is regarded probable in well informed circles that Prince Maximilian, the German imperial chancellor, will today communicate the terms of the armistice to a committee of the reichstag party leaders and will himself convey their vote to authorize the plenipotentiaries to sign the armistice.

PARIS, Nov. 9.—4.20 A. M.—It is probable that the German reply to the Allied terms for an armistice will be brought back by the same courier that took them to German headquarters at Spa yesterday. Under the circumstances it is believed the reply cannot be delivered before the middle of this afternoon at the very earliest.

The German government, however, may use the wireless, in which case the plenipotentiaries at Marshal Foch's headquarters will have only to ratify the decision thus conveyed to them.

PARIS, Nov. 9.—4.15 A. M.—Vice Admiral William F. Simms, commander of the American naval forces in the war zone, was present at the first interview between Marshal Foch and the German armistice mission yesterday. He is American representative at Foch's headquarters.

## CHAIRMAN HOOPER IS IMPRESSED BY VISIT TO CAMP LEE RED CROSS

Given Fine Reception and Shown Many Courtesy by Officials in Charge of the Work.

The more one sees of the things the Red Cross is doing for our soldiers, the more one sees of the magnificent work of the patriotic self-sacrificing women of the land to make it possible for these things to be done. The more confidence the people ought to have in this greatest organization for mercy in the world.

This was the earnest and enthusiastic expression of T. J. Hooper, chairman of the Connellsville branch of the Red Cross, when giving the impression made upon him by a visit to Camp Lee where he had an unusual opportunity through a network of inspection to gain an insight into the operation of the Red Cross in one of the greatest cantonments of the country.

Mr. Hooper's trip to Camp Lee from which he returned yesterday was primarily to visit LeRoy Harper, a nephew of Mrs. Hooper, who has been ill at the base hospital for some time and also to see Chester McKesson, a former employee of Hooper & Long, but now a member of the 15th Company Central Officers' Training School at Camp Lee.

When Mr. Hooper presented his credentials from the Fayette county chapter he was given every courtesy and attention by the officials in charge of the Red Cross. An automobile and chauffeur, were placed at his disposal and he was conducted to the base hospital and through the Red Cross headquarters and showed in detail how this organization is serving the needs of the men in this cantonment. In the building devoted to Red Cross work he found every activity of this organization in operation. He was very much impressed with the magnitude of the work being done, and particularly with the excellent service rendered by the civilian relief division which is doing so

much to smooth out or eliminate all conditions with respect to the families of men in the cantonment which would otherwise, operation these mental distress and uneasiness as to how the folks back home were faring. Straightening out difficulties relating to allotments, soldiers insurance and other matters are among the many matters to which the civilian relief is giving attention and with splendid results and hearty appreciation by the soldiers.

Every American citizen, said Mr. Hooper, ought to visit one of these great training camps not alone to see with what system and order they are conducted, but the wonderful things the Red Cross Y M C A K of C and other organizations are doing. Through such a visit they will be brought under the fine spirit that pervades these camps and be much the better Americans as a result.

To Reopen in Districts Where Disease is Prevalent Criminal, He Says.

### CAREFUL SURVEY ADVISED

Lives of People of Vastly More Importance Than Their Intellectual Development. Declares County Head in Statement on Influenza Situation.

"The lives of the people are of greater importance than their intellectual development."

Thus does County Superintendent John S. Carroll express himself in strongly urging upon school authorities the danger from premature resumption of school sessions. Calling attention to the fact that many of the schools will reopen Monday Superintendent Carroll said he wanted to be fair and the same time he wished to urgently advise that great care be exercised. The statement follows:

The state has lifted the ban. School directors are local health officers in charge of health conditions and all schools may reopen Monday November 11 providing the officials do direct. The terrible disease let it be what it may is still epidemic in many parts of the county and schools in all such districts surely should remain closed until normal conditions return.

A careful survey of health conditions should be made of all boroughs and townships before fixing the time for reopening of school. The scourge in its present stage endangers the lives of the people. It may yet strike down scores of persons who at this time are in good health. To open schools in districts where it is epidemic would be little less than criminal.

Normal conditions will soon return. Those in authority should act thoughtfully in order that the lives of the people be properly safeguarded. When conditions in a township or borough become normal its schools should again take up the work but to reopen schools in communities where people are dying of the terrible disease and where new cases are developing every day would surely bring still more suffering and greater loss of life to the people.

"Open the schools after the epidemic has run its course. The lives of the people are of greater importance than their intellectual development."

They are all anxious for the boat to come in to bring them back to the good old U. S. A.

## RALPH SLIGER'S STRATEGY DEFEATS "COOTIES" WHEN ALL COUNTER ATTACKS FAIL

How Ralph F. Sliger, former line operator for The Courier, now in France with Company H of the 319th Infantry, battled with the "cooties" and when counter attacks failed he resorted to strategy and won. In a letter from Private Sliger to his sister, Miss Mary, of this city, in the same letter he gives some impressions of army life. Ralph says: "We just came back from the front as you no doubt know by this time through the newspapers and I might say right here that the battles our regiment was in are considered among the most severe of the whole war. I wish I could tell you all about it and some of the sights witnessed, but I had better wait until I come home and then I can tell you all. I expect to come to Washington for a few days to see you."

"We are out of the front lines just now for a rest and expect to be out for two or three weeks. I came out of the battle O. K. and am feeling pretty good just now. I wish you could have seen me this afternoon. It is funny and yet it is very provoking and annoying, I can tell you. Some of my little 'friends' started to work overtime and I took off my undershirt to look them over. Several of the fellows were doing the same thing. Well, after I had hunted for a while I bagged 17 of them but that was too slow so I gave up the hunt. The rest of my army of 'friends' did not seem to mind the loss of the 17 at all, and still continued their attack."

"Well, sis, I did not know what to do so I kept counter-attacking (scratching) them for about two hours. In the meantime my brain was working and I hit upon something which I thought might work. I went to the kitchen and borrowed some salt. I then went down to a small creek nearby and took off all my clothes, laying them on the bank. I then sprinkled the salt all over my clothes. The result was the cooties or 'friends' ate the salt, got very thirsty, and ran to the creek to get a drink of water. While they were there I grabbed by clothes and ran. The weather is pretty cold though to try that cure now and I presume it will get colder as winter approaches."

"The other day we were in the woods two nights. Two of us slept in a small dugout. When we first went in a small dugout. When we first went in a big rat ran out. Really, Mary, the rats are as big as cats. The weather was rather cold and disagreeable and he did not like to sleep outside so he kept coming in and we kept chasing him out. It was a sort of battle. I guess the rat thinks he won, because we moved to another place. If we had not been moved out of those woods I know who would have won. It would not have been the rat."

"They gave us cards to send home so we could have Christmas presents sent to us, but I did not send my card home as I think we might be home by that time."

"Army life is not so bad if it were

not for a few unpleasant things, such as sleeping out in the cold rain without cover or shelter, walking for a day and a night without rest, going for three days and three nights without sleep, going for several days with nothing to eat but bully beef and hard tack, and very little water, dodging shrapnel and escaping gas attacks, being bayoned out by an officer now and then, wearing out your shoes and going with your feet on the ground, your clothes all torn and worn out, standing gas sentry in front line trenches at night with shells bursting all around, trying to sleep with the heavy artillery banging away all the time, going for weeks at a time without being able to take off your shoes, sometimes not being able to wash yourself for a week or more, very seldom having a chance to attend church and—many, many other things. Outside of that army life is not so bad."

"We do all these things though cheerfully to whip the Germans. 'Well, sis, it is pretty cold sitting out here where I am, and it is near supper time, so I will close.'"

### POWER CONFERRED ON ALLIED COMMAND LIMITED TO AN ARMISTICE

By Associated Press

WASHINGTON, Nov. 8.—The German armistice delegation entered conference with Marshal Foch at 9 o'clock this morning, French time, the State Department announced officially today.

Announcement was made also that if it is found that the German delegates must refer the armistice terms to Berlin they will be given 72 hours from the time that decision is reached in which to answer.

LONDON, Nov. 8.—12.36 P. M.—The German armistice delegates arrived at Marshal Foch's headquarters at 6 o'clock this morning, according to advices received here.

PARIS, Nov. 8.—2.30 P. M.—The 72 hours within which the German reply must be received will end at 11 o'clock Monday morning.

PARIS, Nov. 8.—11.45 A. M.—The German delegates which came within the French lines last night to receive from Marshal Foch the Allied terms for an armistice proceeded this morning to the meeting place designated by the marshal.

The white flag bearers reached the left wing of General Debeney's army at 10 o'clock last night. They arrived at the place indicated by the Allied supreme commander within the French lines about 2 o'clock this morning and passed the remainder of the night there.

NO TIME TO BE LOST  
MAKING TERMS KNOWN.

PARIS, Nov. 8.—If the credentials of the German armistice delegates are found adequate they will be informed officially what the terms of the armistice are and that they will have a time limit of 72 hours in which to reply.

NO EVASION OR DELAY  
WILL BE TOLERATED.

WASHINGTON, Nov. 8.—Information reaching Washington through diplomatic channels today indicates that if the German armistice envoys are not ready to accept immediately the surrender terms offered by Marshal Foch, the marshal will give them only until Sunday to sign.

No efforts at compromise or evasion by the Germans is to be tolerated. They must take what the Allies and the United States offer and lay down their arms or there will be no interruption of the great offensive which is destroying the German military machine.

Time is given only for consideration of the drastic terms by the envoys and for communication by them with Berlin if they desire. In view of the Associated Press dispatch from Paris saying 72 hours would be allowed, it was assumed here that an additional day had been granted because of the delayed arrival of the Germans.

## KAISER BILL WILL GIVE UP TOMORROW, BERLIN DISPATCH

By Associated Press

LONDON, Nov. 8.—The German monarchy has held a final discussion of the question of Emperor William's abdication and will without doubt unanimously demand that he abdicate, according to a Berlin dispatch to the Copenhagen Politiken, forwarded by the Exchange Telegraph correspondent.

The abdication, it is added, will probably occur tomorrow.

### WILSON PERSONALLY WILL ANNOUNCE SIGNING

WASHINGTON, Nov. 8.—A statement was authorized at the White House this morning that whenever word came of the signing of an armistice in France President Wilson himself would announce it immediately.

When this assurance was given the government had not been advised that the German delegation had reached General Foch's headquarters behind the French lines where they were expected about noon today, Paris time.

### NEW YORKERS STILL ARE CELEBRATING

NEW YORK, Nov. 8.—Thousands of ship yard workers threw down their tools in Staten Island yard today, crossed the harbor on ferry boats and began a march up Broadway, resuming their celebration of the false reports circulated yesterday. Apparently they had stripped the yards of most of the metal which could be used as noise making devices.

### NO SUSPENSION BEFORE SIGNING

WASHINGTON, Nov. 8.—An official diplomatic dispatch from France today emphasized that Marshal Foch is empowered only to deliver armistice terms to the Germans and receive their acceptance and that peace negotiations are not the business of the military commander.

Any suspension of hostilities before the armistice is signed, even if asked on philanthropic grounds, is declared to be out of the question.

### WITHHOLDING NEWS CHANGE IS UTTERLY FALSE, SAYS WILSON

By Associated Press

WASHINGTON, Nov. 8.—At President Wilson's direction Secretary Lansing issued a statement shortly after noon today that any statement that news reaching the government concerning the armistice negotiations was being withheld was utterly false and that as soon as a decision in regard to the armistice was reached it would be made public immediately by the government.

LONDON, Nov. 8.—A Berlin dispatch received here today says: "The third squadron remains faithful to the government."

LONDON, Nov. 8.—Sonderburg, a Prussian town in Schleswig, 13 miles northwest of Flensburg, is in the hands of the revolutionists, according to a dispatch from Copenhagen to the Exchange Telegraph company. The red flag has been hoisted on the ships there.

AMSTERDAM, Nov. 8.—The Cologne Volks Zeitung says the revolution at Bremen was effected in two hours. The marines entered the city to join them after which a meeting was held. This assembly demanded that creation of a social democratic republic. Women joined with the marines in opening the prisons. Order is being maintained by the marines.

COPENHAGEN, Nov. 8.—The German ports of Bremerhaven and Cuxhaven are in the hands of soldiers' councils, the Schleswig Volks Zeitung says.

### ORANGES TAKE TUMBLE

Wholesale Price Drops \$10 Box; Grape Fruit Down Also.  
The drop in the wholesale price of oranges from \$13 to \$8 per box and in grape fruit from \$7 to \$5.50 per crate should bring about a very considerable reduction in the price of these popular fruits.

Recently oranges have been retailed at two for a quarter or at the rate of \$1.50 per dozen and grape fruit from 30 to 25 cents, according to size. At the new wholesale prices oranges should retail at 50 to 60 cents per dozen and grape fruit at 10, 12½ and 15 cents according to size.

Lemons are still high, the wholesale price being \$11 to \$12 per crate. The new crop which is about ready to move should bring a decline similar to that in oranges and grape fruit which has been brought about by the Florida crop reaching the markets.

### OLD CADDIE WAS FEARSOME

Typical Scotch Product Was Combined Bone and Critic—Unknown in Present Day.

There has been a great deal written of the typical old Scotch caddy of other days. The golfer of today knows him not. From the very start he took hold of you, body and soul, and he wanted you to swing every shot according to his ideas, even though you rebelled at being so mothered. It could hardly be said that your round was one of peace and amity. In fact, long before the last hole was reached you probably were not on speaking terms.

The only remark which the old fellow would condescend to make would be on the occasions when you happened to misjudge the distance, when in a loud aside he would observe: "I thought so." After the round he might remark to one of his cronies: "You're a pigheaded man."

## PEACE DEMONSTRATIONS.

The experience Conneltsville and  
other towns that have been holding  
"victory" and "peace" demonstra-  
tions, staged in almost every instance  
thus far upon the receipt of what has  
later proven to be premature, un-  
founded, or incorrect information,  
ought to discourage any further ac-  
tempt in this direction until the time  
does arrive when it will be proper to  
hold a real celebration.

While the gathering of a compara-  
tively small number of celebrants on  
the streets Thursday evening, follow-  
ing the circulation of rumors of the  
signing of the armistice by the Ger-  
mans and the reported "end of the war,"  
did not assume the proportions of a  
general demonstration, due to the fact  
that the news given by The Courier  
and its bulletins denied the rumors  
that were current, the disposition to  
"tear up the town" with a noisy out-  
burst was manifest. Notwithstanding  
the appeal that had been made to show  
decorum regard for the sick and suf-  
fering in various parts of the city, and  
particularly at the emergency hospital,  
a few persons persisted in blowing  
horns and otherwise creating a din  
that was trying on the nerves of those  
who were neither sick nor ailing. This  
noise was perhaps thoughtlessly made  
in the case of many persons but it was  
just as annoying as though it had  
been made with malicious intent.

When peace has been definitely con-  
cluded, as it will be in due course of  
time, it will be entirely proper for  
the people of the community to give  
vent to their joy over the final end-  
ing of the war, but until that time ar-  
rives we ought to compose ourselves  
in patience. If we continue to indulge  
in violent manifestations on every oc-  
casion that may seem to warrant pub-  
lic demonstrations, when the time  
comes for the real celebration we will  
find that we have exhausted much of  
our enthusiasm and blunted the joy  
we would otherwise experience in giv-  
ing vocal or instrumental expression  
to our feelings.

Connellsville has held some remark-  
able demonstrations during the war,  
the last one being in celebrating young  
men to take part in the great struggle  
and magnificence has been respon-  
sible to every call to do something for  
in behalf of these boys or to otherwise  
help them win the war. We ought  
therefore to reserve our most impor-  
tant and worthy achievement in the demon-  
stration line until the proper time comes  
to give it, not waste our energies in  
demonstrations when there is no occasion  
for them.

## MAKE GOOD YOUR PLEDGE.

With peace becoming more and more  
a possibility from day to day and more  
settled wage conditions likely to fol-  
low there is a discussion on the part  
of some folks to let down on the part  
of Liberty Loan pledges to Uncle Sam.  
In short not to pay for their bonds.  
Every such person is starting in  
slightly poor reputation for himself.  
A reputation that he will have diffi-  
culty in living down. Don't get into  
that class. Make good your pledge.  
Like the boys at the front you started  
in to play fair with your country.  
Stand pat. Sit in until the game is  
finished. You cannot lose. But you  
will go broke in reputation if you  
renege now.

Your country and the boys who  
have fought and are yet fighting for  
you mean just as much to you today  
as they did when you pledged yourself  
to pay for your Liberty Bond.  
The need for the money it repre-  
sents is not lessened one bit by the  
prospect of peace. War expenses  
will continue for months after the last  
peace treaty is signed. And in the  
finality it will cost just about as much  
to bring the boys back home as it did  
to send them across the ocean.

Moreover you will not want to regret  
them, knowing that you deserted their  
right when your support was most  
necessary. Play fair with them, with  
your country, with your self-respect,  
with yourself. Make good your Lib-  
erty Bond pledge.

It isn't going to mean any special  
hardship. Wages aren't going to be  
distributed greatly until long after you  
have finished your payments. And by  
that time your bond will probably be  
worth considerably more than its  
face value. Most government bonds  
become so.

So pay for it, but above all hold to  
it.

## TO CURB SOCIALISM IN THE

## GOVERNMENT

If the recent election meant any-  
thing other than a rebuke to partisan  
autocracy it was proof of the desire  
upon the part of thoughtful Americans  
that decisive steps must be taken to  
curb socialism which, during the pre-  
sent administration, has made tremen-  
dous inroads upon the American gov-  
ernment. Men of socialist ideas have  
been placed in positions of authority

and influence where they have had  
large freedom in the propagation of  
their theories. At the same time the  
administration and the socialist ele-  
ment in Congress have acted every-  
where, and under every excuse, to ex-  
tend the application of government  
ownership and control. "Let the gov-  
ernment do it," has been made the  
slogan under the guise of war-time  
necessity. As soon as the government  
takes charge the doing is turned over  
to inexperienced theorists or partisan  
favorites who render inefficient and  
expensive service.

As the principles of socialism are  
given wider application to govern-  
mental affairs the system of govern-  
ment ownership, which is but one form  
of socialism, is being given, becomes self-  
increasing. Every new governmental  
agency of the control type feels the  
need for power, demands more money  
for its expenditure, more employees,  
higher salaries, shorter hours and less  
accountability.

As a man of vivid imagination Ed-  
ward Bellamy was a tyro. He pictured  
his Utopian scheme of government  
ownership as in full operation in the  
year 2000. We are not far from it in  
1918, and are getting on with such  
amazing rapidity that we will not need  
82 years yet in which to complete Bel-  
lamy's dream.

A realization of the possibility that  
we shall be living under a full pattern-  
istic government before we know it,  
if the rush in that direction is not  
stayed, was no inconsiderable factor  
in bringing voters to a decision to re-  
ject to the utmost the demand that  
there be "united control" of Congress  
during the period of reconstruction  
and readjustment following the war.

The awakening we have had must  
be followed by alertness and action  
that will preserve our republic from the  
perils which menace it from this source.

Politician Bertr, Congressman  
elect from Wisconsin, charged with  
violation of the espionage act, is  
likely to encounter a stiff barrage  
when he makes an over the top move-  
ment to gain his objective—a seat in  
the House next March.

The \$40,000 postoffice robbery at

stration a rather expensive luxury.

The real test of German efficiency  
will come in compressing into 50

dreds have been doing during the last

That Bavaria has joined the

went Democratic on Tuesday. It  
means that the Bavarians got a clear  
understanding of the significance of  
the election of a Republican Congress.

Which shall it be? Peace of pieces  
to Germany?

The German armistice covers and  
the Kaiser himself understand quite  
clearly now that the armistice terms  
are not to be treated as a "scrap of  
paper."

Of course you will be delighted  
to be able to resume tomorrow your  
habit of attending church.

Does it not verge dangerously near  
the edge of the abyss for the Demo-  
cratic party, served by the United Press  
to charge that the Administration  
has been leading back armistice news  
with malice aforethought?

Are we to expect that the revolution  
now being made in Germany will be  
conducted with usual German ef-  
ficiency?

## The Bullet or the Ax

By Max Newman

I do not know what fashions of  
art, science, and philosophy may be  
in vogue in future times. But this  
I know:

Nowhere will a nation cringe be-  
fore a madman, such as the Kaiser,  
who has made of the earth a grave-  
yard and a funeral pall of the soul.  
He is the last of his kind. He is in-  
comprehensible. He was born of a  
good woman and a good man, and  
he had brothers and sisters. He had  
all good things given him, as if he  
were a child. He grew to manhood, loved,  
and had beautiful children of his own. He  
had many beautiful gardens and stately  
palaces. He had every wish gratified  
by seventy million souls. Such a  
man should have become a very good  
of love and gratitude. Instead, he  
turned and cut the breasts where  
children drink.

He often sat in a quiet woodland  
place, and by a signature or a word  
sent hundreds of thousands of men  
to unspeakable agony and terrible  
death, yet he always spared his own  
sons. He murdered little children,  
and cut off the hands of little boys.

He tortured innocent young women  
by tearing them from their homes  
and transporting them like cattle to  
distant lands. He wantonly burned  
cities that held centuries of accumu-  
lated treasures dear to the art and  
learning of the whole world. He  
dragged labor-weary old men and  
women from their homes and shot  
them. He shot thousands of prisoners  
because in a piece of steel cost him  
less than a piece of bread.

In history he will consort with  
Nero, Tamerlane, and Ivan the Terri-  
ble—human monstrosities! I do not  
know what men may think in future  
times, but this I know:

They will demand to read that be-  
fore, felt the quick, sharp agony of  
violent death. And if there be made  
a peace that does not shed his blood,  
it will be a damned peace! For this  
America has clutched her fist.

The lying, the soldiers' dead, pos-  
sibly—all demand for him the bullet  
or the ax!

## FRENCH VILLAGERS GIVEN THRILL WHEN AMERICANS APPEAR

Come Forth From Their Hiding  
Places in Cellars in  
Droves.

### CAPTURE OF THIAUCOURT

Warmly Welcomed by Residents Who  
Had Been Under German Subjection  
Four Years; Turn Over All Food on  
Hand to Their Tired Deliverers.

By Associated Press.

WITH THE AMERICAN FORCES  
IN FRANCE, Oct. 31—(Correspondence  
of The Associated Press)—It was  
three American privates who gave the  
French civilians of the German-occupied  
village of Thiaucourt the greatest  
thrill of their lives. For four years they  
had been waiting—and then the  
Americans came.

When the three privates—an advance  
guard of swarms of other Americans  
in their wake—swung into the  
war-torn village of Thiaucourt not a  
soul was in the streets. But within  
a few minutes news spread among the  
seven hundred civilians that the Americans  
were there and men and women and  
children came in droves from cellars  
where they had been hiding in terror  
for two days and nights. And from  
other cellars and dugouts there came  
six hundred German soldiers who  
were delighted with the idea of giving up.

The offensive of the first American  
army, which wiped out the St. Mihiel  
salient, began on a Thursday morning  
and it was Saturday afternoon when  
the weary Americans reached Thiaucourt,  
hungry and fatigued from fast  
walking in their eagerness to keep  
pace with the fleeing Germans.

As the Americans poured into the  
village and the French realized more  
and more that again Thiaucourt had  
come into her own men stood in the  
streets and cried openly and women  
sat about on doorsteps and bits of  
wreckage caused by shells and wept  
until near exhaustion. And in the  
confusion the children cheered, but  
even some of them, the older ones  
realizing what it all meant, cried too  
and kissed the hands of the officers  
and men.

What food they had on hand the  
French turned over to the Americans,  
the villagers insisting upon the Americans  
taking all they wanted of what they  
had. So in the streets and in the  
houses, some of them occupied only a  
few hours previously by German officers  
and men, the Americans made  
themselves at home, for a short  
breathing spell, and the French popu-  
lation of the village endeavored to satisfy  
the appetites of their deliverers.

From the time the Germans reached  
Thiaucourt in September, 1913, until a  
few days after the village had been re-  
taken by American troops, the civilians  
were entirely without fresh meat, of  
any kind excepting now and then a  
chicken or a rabbit, which were raised  
in cellars without the knowledge of the  
Germans, but two cows being left to  
furnish milk for babies.

Until the United States entered the  
war food was sent to Thiaucourt by  
way of The Netherlands by the American  
relief committee and later by a  
Spanish relief committee. This consisted  
principally of bacon, flour,  
sugar, rice, beans, peas and some co-  
coa. Two boxes of condensed milk  
were received in Thiaucourt each  
month and now and then a shipment  
of salt meat. Twice several boxes of  
American shoes arrived for the inhabi-  
tants and at long intervals there were  
small shipments of clothing.

During the four years' occupation  
by the Germans none of the civilians  
were allowed to leave the town. How-  
ever, on one or two occasions individ-  
uals were permitted to visit a nearby  
village to attend the funeral of relatives,  
accompanied by a soldier guard.

#### THE PARAMOUNT.

"HEART OF THE SUNSET"—A  
seven reel Goldwyn feature in which  
Auntie Q. Nilsson is seen in a splendid  
role, is being shown today in addi-  
tion to an excellent comedy in two  
act. Monday "The Judgment" fea-  
turing Miss Nilsson and Franklyn  
Parsons, will be shown Tuesday  
feature is "The Man-Man" Thurs-  
day Montague Love will be seen in  
"To Him That Hath" Friday and  
Saturday attraction is "The Price of  
a Good Time"

#### THE SOISSON.

"A GHOST OF YESTERDAY"—  
Starring Norma Talmadge, the popu-  
lar screen star, is being presented to-  
day. It is also a selected comedy  
Monday and Tuesday Clara Kimball  
Young will appear in "The Marion-  
ettes," a comedy drama of exception-  
al interest. Wednesday and Thurs-  
day "The Doctor Woman" will be  
shown and on Friday and Saturday  
Nae March will be starred in "The  
Glorious Adventure," a Goldwyn fea-  
ture.

#### THE ORPHEUM.

"THE SOURCE"—Featuring Wal-  
lace Reid, proves a very interesting  
drama today. The basis of the plot is  
formed on the downfall of a young  
man and his subsequent redemption  
as the result of the contemptuous  
glance of a young woman. Monday  
and Tuesday "The Kaiser's Shadow,"  
starring Dorothy Dalton, will be  
shown. The story deals with the  
German spy propaganda in this  
country and the efforts of the United  
States secret service to suppress Hun  
agents wherever they may be lurk-  
ing.

#### "To Get Into a Scrape."

The expression "to get into a  
scrape" referred at one time to any  
one who fell into a deer-run in the  
forest. When deer run wild in the  
forest they frequently cut deep fur-  
rows among the trees, due to their  
constant running backward and forward  
over the same ground. The cuts so  
made in the forest were known as  
"deer scrapes," and it sometimes hap-  
pened that a woodsman fell into them,  
to his great danger.

## THE SORE THROAT OF SPANISH INFLUENZA

One of the frequent complications  
of Spanish influenza is sore throat. It  
is important the sore throat be given  
prompt attention and relieved.  
The throat is the gateway to the  
body. The air we breathe, the food we  
eat and the water we drink all pass  
through it. It is the great breeding  
ground for germs and this is especial-  
ly true when it is sore or inflamed. If  
it is kept clean, disease germs have  
small chance to propagate and do their  
deadly work.

Authorities agree Spanish influenza  
is a germ disease and that preven-  
tive measures should be taken. They  
advise the use of an effective gargle  
to keep the throat clean and healthy.  
For this purpose, Tonsiline, The Na-  
tional Sore Throat Remedy, is ideal.  
It is also used as a spray and taken  
pure.

The wonderful increase in the sale of  
Tonsiline during the last few weeks  
shows that many thousands of families  
are making extra use of Tonsiline dur-  
ing this epidemic to quickly relieve  
the often accompanying sore throat  
and as a preventative measure.

Don't wait until you have influenza  
and sore throat in the house, but get  
your bottle of Tonsiline from your  
druggist now for use as a preventative  
gargle and also to be ready to relieve  
sore throat upon its first appearance.  
For more than 25 years the sale of  
Tonsiline has steadily and rapidly in-  
creased. The favor shown it by Ameri-  
can people gives it the right to the  
title, The National Sore Throat Remedy.

### A LONG SMOKE

Cigarettes Distributed to Soldiers in One Month Would Reach 6,392 Miles.

If the 180,000,000 cigarettes ordered for distribution at Y. M. C. A. canteens in France in August alone were placed end to end they would reach something like 6,392 miles, or from America to France and back with a few miles to spare.

Through a recent arrangement with the government all prices charged at Y. M. C. A. canteens or post exchanges for tobacco are the same as at army commissary stores. There were 980 of these post exchanges in active operation at the commencement of autumn. One million two-hundred cans of smoking tobacco were ordered for the same month.

## QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take table-spoonful of Salts if Back Hurts or Bladder Bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this uric acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Dr. Williams' Pink Pills.

Each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in uric acid, to no longer a source of irritation, thus ending urinary and bladder disorders.

Dr. Williams' Pink Pills are a powerful purgative and cathartic, makes a delightful after-dinner drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

## SWEETS OF VICTORY

Chocolate is a Military Necessity to Our Soldiers Overseas.

"The Chocolate Soldier" was a term of derision, but the soldier's chocolate is a military necessity. It satisfies the soldier's sweet-tooth and at the same time gives him something to fight on when meals cannot be considered in the heat of battle.

For one month the Y. M. C. A. with the American Expeditionary Forces ordered 15,000,000 bars of chocolate, 2,500,000 packages of gum and 8,000,000 packages of biscuits. For the chocolate and the biscuits were needed 1,350 tons of sugar and 450 tons of flour, enough to fill 181 French freight cars.

## TO RESUME FOOTBALL

High School Still Has Three Games on Its Schedule.

The Connelville high school football season will be resumed next Saturday when the Latrobe high school plays here at Fayette Field. The team has lost two of its biggest games—those with Greensburg and Johnstown, on account of the influenza ban. Greensburg was to have played here and the locals were scheduled at Johnstown.

Football practice will be resumed Monday evening, and Coach Hode will get his men down to heavy work immediately after the long rest they have had. The locals were to have gone to Wilkensburg to play today but on account of the lack of practice during the period of influenza the game was cancelled. Last Saturday, Scottdale was to have appeared here, but the game has been postponed for next Saturday, November 23. In addition to Scottdale, Connelville will play the Duquesne University high school on Thanksgiving Day.

The Scottdale contest, however, is arousing much interest and as the Mill town boys have not had much action this year a large delegation of followers will accompany them here.

## PETEY DINK—It's a Clever Idea, But Pete Won't Get Away With It

By C. A. VOIGHT

## RALPH SLIGER'S STRATEGY DEFEATS "COOTIES" WHEN ALL COUNTER ATTACKS FAIL

How Ralph F. Sliger, former line-type operator for The Courier, now in France with Company H of the 319th Infantry, battled with the "cooties" and when counter attacks failed he resorted to strategy and won is told in a letter from Private Sliger to his sister, Miss Mary, of this city. In the same letter he gives some impressions of army life. Ralph says:

"We just came back from the front as you no doubt know by this time through the newspapers and I might say right here that the battles our regiment was in are considered among the most severe of the whole war. I wish I could tell you all about it and some of the sights witnessed, but I had better wait until I can come home and then I can tell you all. I expect to come to Washington for a few days to see you."

"We are out of the front lines just now for a rest and expect to be out for two or three weeks. I came out of the battle D. K. and am feeling pretty good just now. I wish you could have seen me this afternoon. It is funny and yet it is very provoking and annoying. I can tell you. Some of my little 'friends' started to work over me and I took off my undershirt to look them over. Several of the fellows were doing the same thing. Well, after I had hunted for a while I bagged 17 of them but that was too slow so I gave up the hunt. The rest of my army of 'friends' did not seem to mind the loss of the 17 at all, and still continued their attack."

"Well, sis, I did not know what to do so I kept counter-attacking (scratching) them for about two hours. In the meantime my brain was working and I hit upon something which I thought might work. I went to the kitchen and borrowed some salt. I then went down to a small creek nearby and took off all my clothes, lying them on the bank. I then sprinkled the salt all over my clothes. The result was the cooties or 'friends' ate the salt, got very thirsty, and ran to the creek to get a drink of water. While they were there I grabbed by clothes and ran. The weather is pretty cold though to try that cure now and I presume it will get colder as winter approaches."

"The other day we were in the woods two nights. Two of us slept in a small dugout. When we first went in a small dugout. When we first went in a big rat ran out. Really, Mary, the rats are as big as cats. The weather was rather cold and disagreeable and he did not like to sleep outside so he kept coming in and we kept chasing him out. It was a sort of battle. I guess the rat thinks he won, because we moved to another place. If we had not been moved out of those woods I know who would have won. It would not have been the rat."

"They gave us cards to send home so we could have Christmas presents sent to us, but I did not send my card home as I think we might be home by that time."

"Army life is not so bad if it were

not for a few unpleasant things, such as sleeping out in the cold rain without cover or shelter, walking for a day and a night without rest, going for three days and three nights without sleep, going for several days with nothing to eat but bully beef and hard tack and very little water, dodging shrapnel and escaping gas attacks, being bayonetted by an officer now and then, wearing out your shoes and going with your feet on the ground, your clothes all torn and worn out, standing gas sentry in front line trenches at night with shells bursting all around, trying to sleep with the heavy artillery hanging away all the time, going for weeks at a time without being able to take off your shoes, sometimes not being able to wash yourself for a week or more, very seldom having a chance to attend church and—many, many other things. Outside of that army life is not so bad."

"We do all these things though cheerfully to whip the Germans. Well, sis, it is pretty cold sitting out here where I am and it is near supper time, so I will close."

## CHAIRMAN HOOPER IS IMPRESSED BY VISIT TO CAMP LEE RED CROSS

Given Fine Reception and Shown Many Courtesies by Officials in Charge of the Work.

"The more one sees of the things the Red Cross is doing for our soldiers, the more one sees of the magnificent work of the patriotic, self-sacrificing women of the land to make it possible for these things to be done, the more confidence the people ought to have in this, the greatest organization for mercy in the world."

This was the earnest and enthusiastic expression of T. L. Hooper, chairman of the Connelville branch of the Red Cross, when giving the impression made upon him by a visit to Camp Lee where he had an unusual opportunity, through a personal inspection, to gain an insight into the operation of the Red Cross in one of the greatest cantonments of the country.

Mr. Hooper's trip to Camp Lee, from which he returned yesterday, was primarily to visit Leroy Harper, a nephew of Mrs. Hooper, who has been ill at the base hospital for some time, and also to see Chester McKoson, a former employee of Hooper & Long, but now a member of the 15th Company, Central Officers' Training School at Camp Lee.

When Mr. Hooper presented his credentials from the Fayette county chapter he was given every courtesy and attention by the officials in charge of the Red Cross. An automobile and chauffeur were placed at his disposal and he was conducted to the base hospital and through the Red Cross headquarters and shown in detail how this organization is serving the needs of the men in this cantonment. In the building devoted to Red Cross work he found every activity of this organization in operation. He was very much impressed with the magnitude of the work being done, and particularly with the excellent service rendered by the civilian relief division which is doing so much to smooth out or eliminate all conditions with respect to the families of men in the cantonment which would otherwise occasion them mental distress and uneasiness as to how the folks back home were faring. Straightening out difficulties relating to allotments, soldiers' insurance and other matters are among the many matters to which the civilian relief is giving attention and with splendid results and hearty appreciation by the soldiers.

"Every American citizen," said Mr. Hooper, "ought to visit one of these great training camps, not alone to see with what system and order they are conducted, but the wonderful things the Red Cross, Y. M. C. A., K. of C. and other organizations are doing. Through such a visit they will be brought under the fine spirit that pervades these camps and be much the better Americans as a result."

## 35,000 HAVE DIED AND 500,000 ARE RECOVERING FROM INFLUENZA IN PA.

Dr. Royer Gives Warning to Sufferers Who Are Now Convalescing; Many Dangers Confront Them.

HARRISBURG, Nov. 9.—Influenza has already claimed more than 35,000 lives in Pennsylvania alone. The State Department of Health declares that unless proper precautions are taken there will be a large addition to the death list and many who think they are recovering will suffer serious relapses which may develop into pneumonia.

In order that persons convalescing from influenza may be properly advised regarding the necessary care to be taken until fully recovered, Dr. Royer, Acting Commissioner of Health, has issued the following statement:

"One-half million Pennsylvanians are now convalescing from influenza. All of them feel for a period of days or weeks the weakness and depression so commonly affecting the convalescent. Thousands of persons will have no physician during the period of recovery, hence a word of warning.

"From two to four days after the average person recovers from the fever accompanying influenza getting up cautiously may be allowed. Getting up and going out often leads to dangerous collapse of the heart because of its inability, due to weakness, to send the blood hurrying to the remote extremities. The heart muscle in most persons has been seriously damaged and the heart itself may suddenly dilate to a dangerous extent, leading to fainting or sinking spells. To put undue strain upon a heart in such condition may lead to permanent damage. Further, a person in such a stage very readily picks up pneumonia because of defective lung circulation and weakness, getting up and going about too soon have thus brought additional pneumonia or heart disease upon themselves.

"Take warning therefore. Get up gradually, stop short at the slightest sign of weakness. Better lay up another week rather than attempt to go beyond the strength of a lagged heart.

"It is inadvisable to attempt buoying up one's strength by over-stimulation. Dissipation of any sort, especially alcoholic dissipation, is dangerous for heart, kidney and lung in this stage. Simple nourishing food taken to the limit of one's digestive ability, and rest frequently in a reclining position, probably offers the best possible hope for complete recovery without permanent damage to vital organs."

## Mrs. Thomas Robinson Ill.

Word was received here this morning that Mrs. Thomas Robinson of near Outcrop is critically ill of Spanish influenza and no hopes are entertained for her recovery. Mrs. Robinson formerly resided at Broad Ford and is the mother of Clarence Robinson, who lost his left arm and suffered other injuries while battling with the Huns.

## PEACE DEMONSTRATIONS.

The experience Connelville and  
other towns that have been holding  
"victory" and "peace" demon-  
strations, staged in almost every instance  
thus far upon the receipt of what has  
later proven to be premature, un-  
founded or incorrect information,  
ought to discourage any further at-  
tempt in this direction until the time  
does arrive when it will be proper to  
hold a real celebration.

While the gathering of a compara-  
tively small number of celebrants on  
the streets Thursday evening, follow-  
ing the circulation of rumors of the  
signing of the armistice by the Ger-  
mans and the reported "end of the war"  
did not assume the proportions of a  
general demonstration, due to the fact  
that the news given by The Courier  
and its bulletins denied the rumors  
that were current, the disposition to  
"tear up the town" with a noisy out-  
burst was manifest. Notwithstanding  
the appeal that had been made to show  
decent regard for the sick and suffer-  
ing in various parts of the city, and  
particularly at the emergency hospital,  
a few persons persisted in blowing  
horns and otherwise creating a din  
that was trying on the nerves of those  
who were neither sick nor ailing. This  
noise was perhaps thoughtfully made  
in the case of many persons but it was  
just as annoying as though it had  
been made with malicious intent.

When peace has been definitely con-  
cluded, as it will be in due course of  
time, it will be entirely proper for  
the people of the community to give  
vent to their joy over the final end-  
ing of the war, but until that time ar-  
rives we ought to compose ourselves  
in patience. If we continue to indulge  
in violent manifestations on every oc-  
casion that may seem to warrant pub-  
lic demonstrations, when the time  
comes for the real celebration on we will  
find that we have exhausted much of  
our enthusiasm and blunted the joy  
we would otherwise experience in giv-  
ing vocal or instrumental expression to  
our feelings.

Connellville has held some remark-  
able demonstrations during the war,  
he has done nobly in making young  
men to take part in the great struggle  
and magnificently has responded to  
every call to arms for courage or in  
behalf of those boys or in otherwise  
help them with the war. We ought  
therefore to reserve our most note-  
worthy achievement in the demon-  
stration line until the proper time comes  
to give it, not waste our energies in  
outbursts when there is no occasion  
for them.

## MAKE GOOD YOUR PLEDGE.

With peace becoming more and more  
a possibility from day to day and un-  
settled wage conditions likely to fol-  
low there is a disposition on the part  
of some folks to let down on their  
Liberty Loan pledges to Uncle Sam.  
In short not to pay for their bonds.  
Every such person is starting a  
mighty poor reputation for himself.  
A reputation that he will have diffi-  
culty in living down. Don't get into  
this class. Make good your pledge.  
Like the boys at the front you start-  
ed in to play fair with your country.  
Stand pat. Sit in until the game is  
finished. You cannot lose. But you  
will go broke in reputation if you  
renege now.

Your country and the boys who  
have fought and are yet fighting for  
you mean just as much to you today  
as they did when you pledged yourself  
to pay for your Liberty Bond.  
The need for the money it repre-  
sents is not lessened one bit by the  
prospect of peace. War expenses  
will continue for months after the  
peace treaty is signed. And in the  
finality it will cost just about as much  
to bring the boys back home as it did  
to send them across the ocean.

Noreover you will not want to greet  
them, knowing that you deserted them  
right when your support was most  
necessary. Play fair with them, with  
your country, with your self-respect,  
with yourself. Make good your Lib-  
erty Bond pledge.

If you're going to mean any special  
hardship. Wages aren't going to be  
distributed greatly until long after you  
have finished your payments. And by  
that time your bond will probably be  
worth considerably more than its  
face value. Most government bonds  
become so.

So pay for it, but above all hold to it.

## TO CURE SOCIALISM IN THE

## GOVERNMENT

If the recent election meant any-  
thing other than a rebuke to partisan  
utocracy it was proof of the desire  
upon the part of thoughtful Americans  
that decisive steps must be taken to  
curb socialism which, during the pres-  
ent administration, has made tremen-  
dous inroads upon the American gov-  
ernment. Men of socialistic ideas have  
been placed in positions of authority

and influence where they have had  
large freedom in the propagation of  
their theories. At the same time the  
administration and the socialistic el-  
ement in Congress have seized every  
opportunity, and some excuses, to ex-  
tend the application of government  
ownership and control. "Let the gov-  
ernment do it" has been made the  
slogan under the guise of war-time  
necessity. As soon as the government  
takes charge the going is turned over  
to inexperienced theorists or partisan  
favorites who render inefficient and  
expensive service.

As the principles of socialism are  
given wider application to govern-  
mental affairs the system of govern-  
ment ownership, which is but one form  
socialism is being given, becomes self-  
increasing. Every new governmental  
agency of the control type feels the  
need for power, demands more money  
for its expenditure, more employees,  
higher salaries, shorter hours and less  
accountability.

As a man of vivid imagination Ed-  
ward Bellamy was a tyro. He pictured  
his Utopia scheme of government  
ownership as in full operation in the  
year 2000. We are not far from it in  
1918, and are getting on with such  
amazing rapidity that we will not need  
82 years yet in which to complete Bel-  
lamy's dream.

A realization of the possibility that  
we shall be living under a full pattern-  
istic government before we know it.  
If the rush in that direction is not  
stayed, there is no inconsiderable fac-  
tor in bringing voters to a decision to re-  
sist to the utmost the demand that  
there be "unified control" of Congress  
during the period of reconstruction  
and readjustment following the war.

The awakening we have had must  
be followed by alertness and action  
that will preserve our republic from the  
perils which menace it from this source.

Bellevue, Berger, Congressman-  
elect from Wisconsin, charged with  
violation of the espionage act, is  
likely to encounter a stiff barrier  
when he makes an over the top move-  
ment to gain his objective seat in the  
House next March.

That \$10,000 postoffice robbery at  
Bedford made the "peace" demon-  
stration a rather expensive luxury.

The real test of German efficiency  
will come in compressing into 72  
hours all the thinking the German-  
ers have been doing during the past  
four years.

The hunting field casualties threat-  
en to rival those from the western  
front.

That Bavaria has joined the  
demonstrations does not mean that  
it was Democratic on Tuesday. It  
means that the Bavarians got a clear  
understanding of the significance of  
the election of a Republican Congress.

Which shall it be? Peace or peace  
in Germany?

The German armistice envoys and  
the Kaiser himself understand quite  
clearly now that the armistice terms  
are not to be treated as a "scrap of  
paper."

Of course you will be delighted  
to be able to resume tomorrow your  
habit of attending church.

Does it not verge dangerously near  
the majestic for the Democratic par-  
ty served by the United Press to  
charge that the administration has  
been holding back armistice news  
with malicious forethought?

Are we to expect that the revolution  
now being made in Germany will be  
conducted with usual German ef-  
ficiency?

## The Bullet or the Ax

By Max Ehrman.

I do not know what fashions of  
art, science, and philosophy may be  
in vogue in future times. But this  
I know:

Nowhere will a nation cringe be-  
fore a madman, such as the Kaiser,  
who has made of the earth a grave-  
yard and a funeral pall of the soul.  
He is the last of his kind. He is in-  
comprehensible. He was born of a  
good woman, and nursed at her  
breast. He was playful in child-  
hood, and he had brothers and sis-  
ters. He had all good things given  
him, as if the earth were a fair-  
land. He grew to manhood, loved,  
and had children of his own. He had  
many beautiful gardens and stately  
palaces. He had every wish gratified  
by seventy million souls. Such a  
man should have become a very good  
of love and gratitude. Instead, he  
turned and cut the breasts where  
children drink.

He often sat in a quiet woodland  
palace, and by a signature or a word  
sent hundreds of thousands of men  
to unspeakable agony and terrible  
death, yet he always spared his  
own. He murdered little children,  
and cut off the hands of little boys.  
He tortured innocent young women  
by tearing them from their homes  
and transporting them like cattle to  
distant lands. He wantonly burned  
cities that held centuries of accumu-  
lated treasures dear to the art and  
learning of the whole world. He  
dugged labor-weary old men and  
women from their homes and shot  
them. He shot thousands of prisoners  
because an ounce of steel cost him  
less than a piece of bread.

In history he will consort with  
Nero, Tamerlane, and Ivan the Ter-  
rible—human monstrosities! I do not  
know what men may think in future  
times, but this I know:  
They will demand to read that he,  
too, felt the quick, sharp agony of  
violent death. And if there be made  
a peace that does not shed his blood,  
it will be a damned peace! For this  
America has clinched her fist.

The living, the soldiers dead, nos-  
tality—all demand for him the bul-  
let or the ax!

At Smithfield, N. Y., Sunday  
school and church services will be  
resumed in all the churches here on  
November 10. Communion will be  
observed at both the Presbyterian  
and Baptist churches, and at the lat-  
ter church Rev. W. H. Austin of  
Warrensville, Pa., a possible candi-  
date for the pulpit, will preach both  
morning and evening.
